Shannon Davies (Class of 1999) has initiated a scholarship for Brain Cancer Research after his son Ethan was diagnosed at 20 months old with a rare brain tumour. Known as ependymoma, it was wrapped around his brain stem and growing into his spine. He had surgery, chemotherapy, and radiotherapy treatment at Princess Margaret Hospital and recent scans show no sign of the tumour.

Shannon and his wife Christine established the Ethan Davies Scholarship for Brain Cancer Research in partnership with the Telethon Institute for Child Health Research. Since March 2013, they have raised over $200,000 for the scholarship. The first Scholarship will be awarded in 2014. The annual Scholarship will support the research of a tertiary neurosurgeon at the Institute. Research will particularly focus on ependymoma. If you are interested in supporting the Ethan Davies Scholarship or would like more information, email sdavies@solbros.com.au
